PROFESSIONAL SUMMARY

Business Analyst with 7+ years of total professional experience across business data analysis, reporting, process automation, operational support, and stakeholder coordination — including 3+ years focused on Business Analysis, KPI reporting, and dashboard development. Skilled in requirements gathering, process improvement, and data-driven decision-making using Power BI, SQL, Advanced Excel, and VBA. 3+ years of hands-on experience applying AI tools to improve productivity, reporting, analysis, documentation, and workflow automation. Currently supporting Morgan Stanley operations at RR Donnelley; recognized as a Best Performer within 3 months of joining.

PROFESSIONAL EXPERIENCE

RR Donnelley

May 2026 – Present

Project Coordinator / Business Analyst L3 | Chennai, Tamil Nadu

- Support Morgan Stanley operations by coordinating project workflows, task tracking, and operational activities across teams.
- Analyze business processes and prepare operational reports to support project execution and decision making.
- Collaborate with stakeholders to improve process efficiency, workflow management, and operational visibility.
- Monitor project progress, ensure timely updates, and maintain accurate process and project documentation.
- Apply AI tools to improve productivity across analysis, reporting, documentation, and routine business workflows.
- Recognized as a Best Performer at RR Donnelley within 3 months of joining.

Prudent AI

Apr 2023 – Oct 2025

Business Analyst / Data Analyst | Chennai, Tamil Nadu

- Gathered and analyzed business requirements and translated them into reporting solutions.
- Developed Power BI dashboards to track KPIs and performance metrics.
- Performed descriptive and exploratory data analysis to generate actionable insights.
- Automated reporting processes using Excel VBA and macros.
- Collaborated with teams to improve business processes and identify automation opportunities.
- Ensured data accuracy and delivered insights to support decision making.

Prudent AI

Aug 2022 – Apr 2023

Production Support Analyst | Chennai, Tamil Nadu

- Automated NQM bank statement workflows using Excel automation.
- Performed QC validation for NQM processing and supported operational accuracy.
- Monitored operational metrics and generated reports.
- Conducted training sessions and created process documentation.

First Source Solutions

Sep 2020 – Jan 2021

Senior Loan Setup Analyst | Chennai, Tamil Nadu

- Managed loan setup and borrower data validation.
- Verified financial documents including income and credit reports.
- Handled operational reporting and ensured compliance with underwriting guidelines.

First American India

Jan 2017 – Jun 2020

Process Associate | Salem, Tamil Nadu

- Managed post-closing mortgage documentation workflows.
- Ensured TAT adherence and performed quality checks.
- Handled document indexing, operational support, reporting, and MIS activities.

KEY PROJECTS

- Mortgage QC Automation (Prudent AI): Reduced review time by 10 minutes per file using Excel macros.
- Zoho Desk Reporting (Prudent AI): Built automated reporting for real-time insights.
- Power BI Dashboard (Prudent AI): Developed KPI dashboards for performance tracking.
- SQL Sales Analysis (Prudent AI): Created database queries for regional performance insights.
- AI Reporting Tool (RR Donnelley): Reduced monthly effort by 6 hours.
- Excel Utilities (Prudent AI): Built formatter, PDF splitter, and merger tools.
- Developed an internal AI-powered application using HTML, CSS, and JavaScript to streamline process workflows, reducing processing time by 15 minutes per file.

CARRER GROWTH

- Internally advanced from Production Support Analyst to Business Analyst / Data Analyst at Prudent AI within 8 months, based on demonstrated ownership of automation and reporting initiatives.
- Consistently introduces automation into every role held, turning manual, repetitive tasks into streamlined, low-touch processes across BFSI and mortgage-operations environments.
- An everyday Excel user by habit, not just necessity — routinely builds formulas, macros, and VBA-driven tools to solve problems before they're even flagged.
- Comfortable operating end-to-end, from hands-on production support to business analysis, reflecting adaptability and steady upward growth.

ACHIEVEMENTS
